

Educate, Promote, and Create Visibility of Technology Opportunities Across All Industries In NEBRASKA

THE TECHNOLOGY ASSOCIATION OF NEBRASKA (TAN) is a statewide organization dedicated to strengthen Nebraska's technology ecosystem.

nebraskatech.org

THE NEED

Last year 1,100 people graduated in technology related degrees in the state. However, there are over 1,600 open technology jobs in Nebraska at any given moment. This impacts all businesses as technology is now fundamental to all of Nebraska's industries, with need continually on the rise. TAN will promote and facilitate programs and services to educate and create awareness of opportunities in technology.

MISSION

- Build a statewide organization dedicated to fostering the growth of Nebraska's technology ecosystem.
- Align statewide leadership around tech job creation and workforce readiness.
- Retain top talent and pioneer technology expansions into the future.

PILLARS OF FOCUS

- **Visibility:** Measure and communicate the impact of technology jobs in Nebraska
- **Education:** Promote partnerships and platforms for technical educational advancements
- **Workforce:** Increase the flow of qualified and diverse talent for the growing job opportunities in Nebraska
- **Advocacy:** Educate political and education leaders to ensure sustainability

ACTIONS

TAN is currently collaborating with a broad array of organizations and leaders including technology based businesses, educators, political leaders and leading advocates within the state of Nebraska. To learn more about joining our efforts, please contact us.
